

Configurations: Button/Switch

Description:

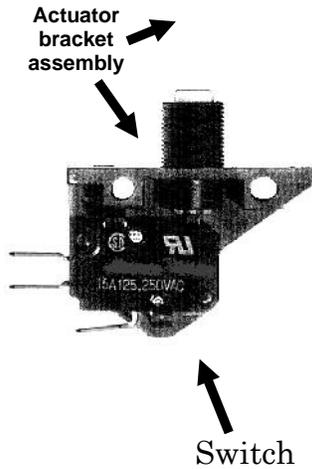

Heavy duty momentary long life switch with plastic button and rubber cap to protect switch from moisture and freezing. Contacts rated up to 36vdc. Screw terminals. Our most popular and economical pushbutton.

S01

Description:

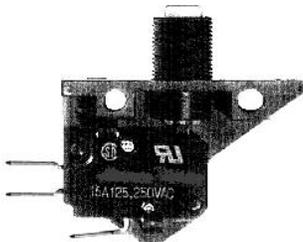

Light force actuated (2.5 oz) miniature snap action long life switch rated at 10a, 250vac. Mounting with plastic actuator isolates switch from opening for excellent moisture resistance. High vandal resistance. Wire pigtailed.

S02

Description:

Same switch as S02 above except mounted behind protective rubber membrane to provide freeze protection (Membrane is replaced easily).

S03

Description:

Standard force actuated (10 oz.) full size long life snap action switch rated at 15a, 250vac. Mounting with brass actuator isolates switch from opening for excellent moisture resistance. High vandal resistance. Screw terminals.

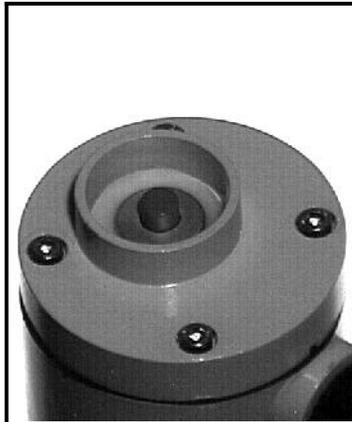

S04

Configurations: Button/Switch

Description:

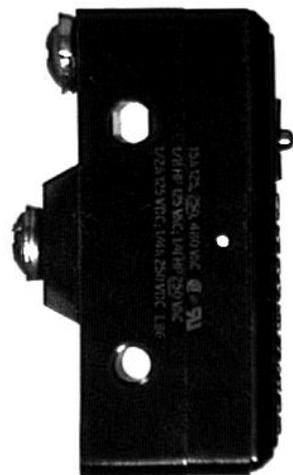

Positive tactile feedback (4lbf) button with 10a, 28vdc/115vac rating. High moisture resistance with contact area sealed at case and terminals. Wire pigtailed. Red plastic button.

S07

Description: (Small ADA)

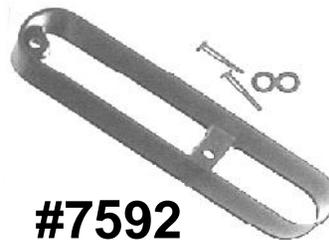

1 1/4" Diameter aluminum actuator button. Standard force actuated (10 oz.) full size snap action long life switch rated at 15a, 250vac. High vandal resistance. Screw terminals.

S09

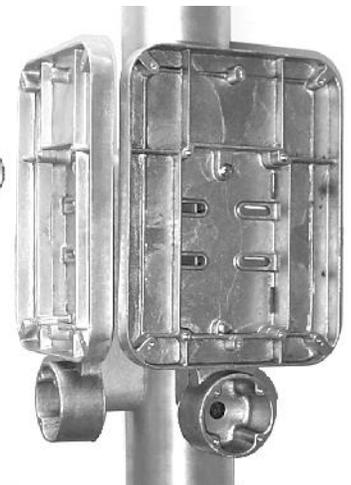

Now Available!
